PERSONAL PROJECTS

Blue Bug (03/2022 - 11/2022)

- I created a ticketing system that can perform all the CRUD functions. Some things that I included are creating tickets, deleting tickets, creating users, updating users, etc. I have included this project on my website/portfolio.

DebateTexas (01/2023 - 03/2023)

- This is for a business offering debate services. I used HTML and CSS predominantly for the website. I also created the logo that is used on the website's homepage. I am still doing updates on this website whenever needed.

CERTIFICATES

Harvard CS50 (11/2022 - Present)

This is where I used the language C to create a couple projects for the homework assignments. This class focuses mainly on how to solve problems.
